### NUMBER OF INSPECTIONS

# 300,000

### NUMBER OF DAMAGE ASSESSMENTS

# 140,000

VICOM is Singapore's premier testing and inspection company, offering a comprehensive range of testing and vehicle inspection services through VICOM Inspection Centre, JIC Inspection Services Pte Ltd, VICOM Assessment Centre and Setsco Services.

We operate seven out of nine vehicle inspection centres in Singapore, making us market leader with a 75% share. Our lead was further augmented in 2005 when we increased our shareholding in JIC Inspection Services from 41.5% to 78%.

Through VICOM Assessment Centre, we offer one-stop services to motorists involved in accidents. These include towing, accident reporting, damage assessment, vehicle repair arrangements and quality checks on repaired vehicles. Two new services were added in 2005 – Third Party Claims Assistance and Accident Reconstruction.

Set up in 1996, VAG has since conducted more than 140,000 damage assessments.

VICOM diversified into non-vehicular professional testing and inspection services with the acquisition of Setsco Services Pte Ltd in 2003. Based in Singapore with a global clientele network, Setsco caters to a wide spectrum of industries including electronics, biotechnology, petrochemical, engineering and construction. Setsco is one of Singapore's largest testing and inspection companies, offering highly specialised services such as non-destructive testing, chemical and biological testing, calibration and measurement, and environmental testing.

We serve customers from all over the world including Abu Dhabi, Ireland, Switzerland, Vietnam and the United States.
